Solution Brief

Enhancing Business Efficiency through Secure Collaboration and Scalable Cloud Storage

Overview

In today's interconnected business landscape, organisations are leveraging secure collaboration platforms and scalable cloud storage solutions to optimise efficiency and adaptability. Remote teams seamlessly communicate, transfer documents, and manage projects while ensuring data security remains paramount. With a centralised platform and version control, productivity soars, and overhead costs decrease. This dynamic environment empowers organisations to streamline workflows, accommodate remote work trends, and stay agile in a competitive landscape.
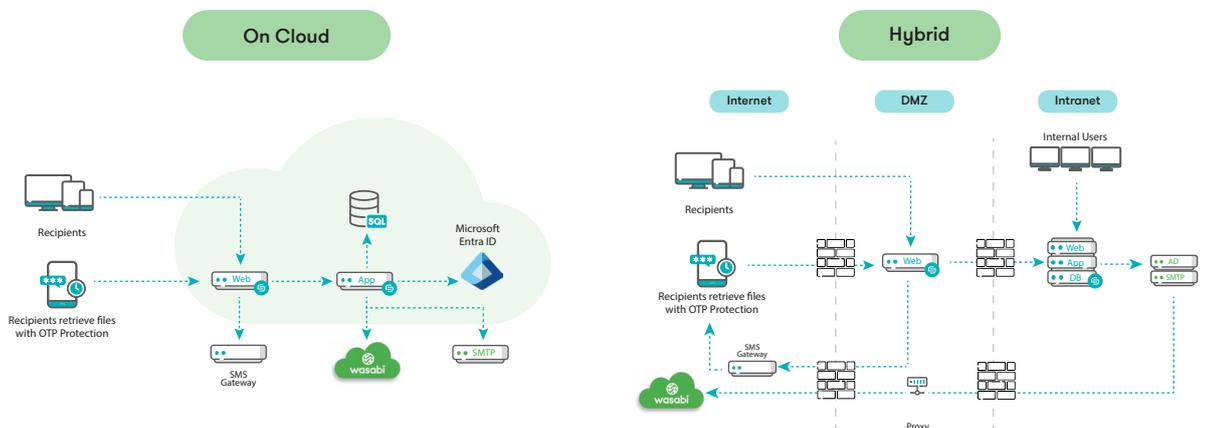

The Challenge

Limited storage capacity and lack of centralised access can restrict the organisation's ability to store and access data, leading to inefficiencies and potential data loss. Here are some other challenges:

• Restricted storage capacity hampers data accessibility and leads to potential data loss.
• Increased costs due to the need for continual investment in expanding storage infrastructure.
• Lack of flexibility to adapt to changing business needs or accommodate growth.
• Hindered collaboration and productivity across teams and locations.
• Impeded organisational agility, competitiveness, and innovation.

These challenges can impede organisational agility, competitiveness, and innovation in the rapidly evolving digital landscape.

Solution

EasiShare and Wasabi can be deployed on these 2 architectures. Both cloud and hybrid deployments offer a myriad of benefits, combining scalability, flexibility, and cost-efficiency.

On Cloud

• Enable businesses to utilize on-demand resources.
• Scale operations as required without upfront infrastructure investment.

Hybrid

• Blending on-premises and cloud environments for optimal security and control.
• Seamlessly integrate existing systems with cloud services for boosted performance and resilience.

File Transfer with Advanced Security

Wasabi's secure storage infrastructure complements with EasiShare's Secure File Transfer security features, providing a comprehensive solution for data privacy and protection.

Dependable Team Collaboration Tools

EasiShare's collaboration tools are enhanced by the reliability and speed of Wasabi Cloud Storage, enabling teams to collaborate on projects with large file sizes without compromising performance.

Endpoint Backup Files Reliably

EasiShare allows Admins to automate backup of pre-defined folders for different groups of users to avoid congestion of network. With Wasabi's robust encryption protocols, Backups remains secure and protected from unauthorized access.

Seamless Data Management with Scalability

EasiShare seamlessly integrates with Wasabi Cloud Storage, allowing organizations to leverage the scalability, flexibility, and cost-effectiveness of Wasabi for storing and managing data for businesses of all sizes.

Key Benefits

Compliance and Data Governance

EasiShare helps organisations meet regulatory requirements and adhere to data governance policies by providing features such as audit trails, access logs, and compliance reporting, giving them control over their data and comply with industry standards and regulations.

Scalibility and Flexibility

Together, EasiShare and Wasabi ensures scalability to meet growing storage needs, making it suitable for businesses of all sizes. It allows organizations to adapt their storage and collaboration requirements dynamically.

Cost Effective Storage

By leveraging Wasabi's cost-effective cloud storage, organizations can achieve significant cost savings on their storage infrastructure while benefiting from EasiShare's collaboration capabilities without breaking the bank.

Data Durability and Security

Wasabi ensures extreme data integrity and security providing eleven 9s of object durability and supports secure data transmission with TLS encryption.

inspiretech

www.inspire-tech.com

Established in 2000 in Singapore, Inspire-Tech has grown from a humble start-up into a future-driven and internationally expanding organisation which provides easy-to-use and secure software products and services.

Since its establishment, Inspire-Tech has helped more than 500 organisations to boost their workforce efficiency and productivity, and empower their employees to do more, sustainably.

wasabi hot cloud storage

www.wasabi.com

Wasabi provides simple and affordable hot cloud storage for businesses all over the world. It enables organizations to store and instantly access an unlimited amount of data with no complex tiers, fees for egress or API requests, while delivering predictable costs that save money and industry leading security and performance businesses can count on.

Trusted by customers worldwide, Wasabi has been recognized as one of technology's fastest growing and most visionary companies. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is a privately held company based in Boston.
